

Mobile Mount 900 MHz Antenna

Applications: Vehicle mobile mount for roof or trunk

Antenna Type: Omni-Directional

Frequency: 896 to 970 MHz

Polarization: Vertical

Impedance: 50 ohms

Gain: 5 dBi

VSWR: < 2 to 1

Power: 200 watts

Antenna Material: Molded polymer with black elastic spring

Mounting Hardware: Included

Operating Temperature: -45 to 85 Deg C

Wind Speed Survivability: 100 mph+

Antenna Connector: TNC-mrp connector with 17 feet integral LMR-195 cable

Antenna Mount Hole: $\frac{3}{4}$ in.

Antenna Envelope: 16 in. length.

Weight: < 1 lb.
